TO WHOM IT MAY CONCERN:

Leipziger Kaminker Mitelman & Partners Inc. (LKM) has provided Mechanical and Electrical Consulting Engineering services for a variety of projects since our founding in 1962. We have extensive experience in commercial, high level security, industrial, multi-residential, municipal, and institutional facilities.

As part of the design team, we have worked with Clare, Randall-Smith and Associates Limited who have been the cost consultants on various projects. The team at Clare, Randall-Smith consistently prove themselves as professionals in their approach in estimating projects. They demonstrate an in-depth understanding of the design intent, from conceptual to tender documents and provide accurate, and detailed backup at every level of the project. We appreciate the communication, queries, and correspondence Clare, Randall-Smith shares with our design team on the projects, and it is always a pleasure to work with them.

Yours very truly,

LEIPCIGER KAMINKER MITELMAN
And Partners Inc.
